

VINAY KUMAR PUDI

FRONT END DEVELOPER

Profile

Dynamic Frontend Developer with over 3 years of experience, specializing in building responsive and user-centric web interfaces that boost engagement and satisfaction. Proficient in **HTML5**, **CSS3**, **JavaScript**, with solid experience in **jQuery** and **Sitecore CMS**. Known for collaborating effectively with cross-functional teams to deliver innovative, scalable solutions. Currently upskilling in **React.js** and **Generative AI tools** to stay ahead of emerging trends. Brings a strong eye for detail, performance optimization, and a passion for delivering high-quality user experiences.

Employment History

Frontend Developer, Tata Consultancy Services (TCS), Hyderabad

FEBRUARY 2022 – PRESENT

- Developed responsive and accessible user interfaces using **HTML5**, **CSS3**, **JavaScript (ES6+)**, and **jQuery**, ensuring cross-browser and cross-device compatibility.
- Maintained and enhanced enterprise websites using **Sitecore CMS**, managing content components and custom layouts for dynamic rendering.
- **Improved website performance** by implementing **lazy loading for images and videos**, code minification, image compression, and browser caching strategies — resulting in faster load times and better Core Web Vitals scores.
- Integrated **third-party APIs** and developed **modular, reusable UI components** to streamline content delivery across platforms.
- Collaborated with cross-functional teams including backend developers, designers, and QA to deliver optimized, scalable, and maintainable frontend solutions in Agile sprints.
- Used **Git/GitHub** for version control, actively participating in code reviews and feature branching.
- **Currently expanding skills in React.js and Generative AI tools**, applying modern JavaScript concepts like components, hooks, and context in personal and professional projects.

Projects

- **Tech News Platform:** Built a tech news platform integrating articles from both a custom API and the DEV.to API, with features like skeleton loaders, dynamic card layouts, and a responsive UI for a seamless user experience. Integrated third-party APIs and implemented reusable UI components to streamline content delivery across platforms
